Request for ROC on EB-1, Former Grossheim Contact

REFER: KCS: BASA-1994, KASA-1994

1. Preliminary Operational Clearance is requested by cable on former Grossheim contact EB-1. Biographic data is included in a separate dispatch.

2. Prior to his departure, Grossheim told EB-1 that he would be contacted by a friend of Grossheim's in several months. Grossheim wrote a note, which was countermanded by EB-1, to be used in establishing the bona fides of this "friend". [] plans to see the note and contact. [] has no comment to determine his operational reliability, if any, or a reliable contact and whether in the line area. [] has stated that EB-1 indicated to Grossheim a willingness to receive and report on the operational signal to give information to persons with Soviet connections.

3. BASA-1994 gives some information on EB-1's contacts with KCS and FIS in recent past. It states to emphasize that no further EB-1's operational licence connections have not been satisfactorily clarified and that no plans, or even hopes, for him. On the other hand, we do not want to obstruct out such apparently willing bodies in a necessary part of establishing new assets in the line area.
